

2008 Fiscal Survey Report & Analysis

September 2009

Maine Municipal Association
60 Community Drive
Augusta, ME 04330
1-800-452-8786

Introduction

Introduction

The financial information contained in this report comes from the municipal officials who filled out the local government finance survey distributed jointly by the U.S. Census, the State Planning Office and MMA. The goal of the collaborative effort was to consolidate the several financial surveys conducted by the three organizations into one request to the communities. As a result, nearly 50% of all Maine communities are represented in this year's fiscal survey, which sets a record. The data collected in the survey will assist our three organizations in educating municipal leaders, state policymakers, and members of public about municipal revenues and expenditures.

Two hundred and thirty-eight (238) communities participated in the survey for a response rate of 49% (*Table 1*). Rates of participation were highest in communities with populations between 2,000 and 3,499 and lowest in the least populated communities. Participation rates in communities with populations over 5,000 were over 50%. In the past, participation from communities with populations greater than 10,000 has hovered in the 35% range.

Table 1
2008 Fiscal Survey Response Rate

Population Group	# of Municipalities in Group	# of Municipalities in 2008 Fiscal Survey	Response Rate
10,000 +	20	11	55%
5,000 - 9,999	45	25	56%
3,500 - 4,999	37	17	46%
2,000 - 3,499	63	43	68%
1,000 - 1,999	115	60	52%
Under 1,000	209	82	39%
Totals	489	238	49%

For the purpose of this report, the data are presented in two ways.

1. Population Group Averages and Statewide Estimates. Based on the information provided by the 238 municipalities participating in the 2008 local government finance survey, the first section of the report uses average revenue and expenditure data, calculated by population group, to estimate statewide revenues and expenditures. In order to calculate statewide revenues and expenditures, a three-step formula is used:

- First, average revenue and expenditure data are calculated for each population group. For the purposes of this report, municipalities were categorized into six different population groups: 1) over 10,000; 2) 5,000 – 9,999; 3) 3,500 – 4,999; 4) 2,000 – 3,499; 5) 1,000 – 1,999; and 6) under 1,000.
- Second, average revenue or expenditure data are multiplied by the number of municipalities in each population group, which yields estimated group-wide revenue and expenditure totals.
- Third, all of the population group totals are summed to achieve an estimated statewide total.

Table 2
Example of Statewide Estimates Methodology - State Revenue Sharing

Population Group	Average Revenue Sharing Distributed to Survey Participants	# of Municipalities in Group	Estimated Revenue Sharing Distributed to All Municipalities
10,000 +	2,032,690	20	40,653,807
5,000 - 9,999	687,953	45	30,957,904
3,500 - 4,999	419,055	37	15,505,053
2,000 - 3,499	235,383	63	14,829,105
1,000 - 1,999	115,061	115	13,232,052
Under 1,000	41,299	209	8,631,440
Totals	3,531,441	489	123,809,361

For example, as illustrated in *Table 2*, the application of this methodology to the survey data predicted that in 2008 municipalities received \$122.5 million in state revenue sharing. According to the State Treasurer's data, in 2008 municipalities actually received \$132.9 million in state revenue sharing.

In some cases municipalities reported in the survey that they did not have a particular expenditure. In those cases, a zero was used in the averaging formula. However, it has come to our attention that some zero entries in the debt service category were provided to us in error. In cases where we were unable to verify that the community had no debt service payments, the zero was excluded in the calculation of the population-group average.

2. Municipal Data. The information collected in the survey is also presented on a municipality-by-municipality basis and sorted by population categories. This format provides a quick and easy way for municipal officials to see how their revenue and expenditure data compare with other communities.

On behalf of the State Planning Office and the U.S. Census Bureau, thank you for taking the time to complete this survey. We hope you find this information useful. If you have any suggestions on how to make the report better, please feel free to contact MMA's Kate Dufour at 1-800-452-8786 or kdufour@memun.org. Thank you for your ongoing interest in this important project.

Population Group and Estimated Statewide Revenues and Expenditures

Estimated Statewide Revenues and Expenditures

Revenue Overview. As shown in *Table 3* and *Table 4* below, in 2008 municipalities statewide collected \$3.5 billion in revenues and spent \$3.3 billion to provide local services. Please note that the total state and municipal shares of K-12 education funding are reflected in both the revenue and expenditure categories. In 2008, it is estimated that municipalities spent \$1.1 billion on K-12 education, while the state spent \$877.4 million (not including state investments in teacher retirement) for a total state and municipal investment of \$1.9 billion.

Table 3
Sources of Revenues - Statewide Estimates

Population Group	Municipal	State	Federal	Surplus	Reserve or Trust Fund	Total
10,000 +	743,081,220	325,460,682	12,820,815	5,328,607	1,377,116	1,088,068,440
5,000 - 9,999	596,847,925	269,561,655	5,033,566	9,458,825	2,020,387	882,922,358
3,500 - 4,999	274,528,152	173,407,952	1,814,063	10,252,307	2,901,207	462,903,681
2,000 - 3,499	255,199,278	155,760,012	2,897,069	5,608,895	1,637,944	421,103,198
1,000 - 1,999	228,405,443	144,600,869	4,438,610	10,490,659	2,363,360	390,298,941
Under 1,000	150,111,138	91,840,300	2,281,551	8,142,644	1,981,011	254,356,644
Totals	2,248,173,156	1,160,631,470	29,285,674	49,281,937	12,281,025	3,499,653,262
% of Total	64.2%	33.2%	0.8%	1.4%	0.4%	100%

Of the \$3.5 billion in total municipal revenue, 64% (\$2.2 billion) was generated by municipal sources, including the property tax, excise taxes, fees and interest. State revenue accounted for the second largest source of municipal revenues, generating an estimated \$1.2 billion in 2008. Federal, surplus and trust fund revenues raised \$90.8 million to fund the 2008 level of municipal services.

Expenditure Overview: As would be expected, combined state and local funding for K-12 education accounted for the largest expenditures at the local level. General administration expenditures, which include total wages and benefits, town office functions including tax collection, elections, financing, assessing, building maintenance, and insurances, accounted for the second largest expenditure at the local level. Please note, that when possible all employee wages and benefits were reported under the “General Administration” category.

Table 4
Sources of Expenditures - Statewide Estimates

Population Group	General Admin	Public Safety	Public Works	Code/Human Services	Parks/Library	County	K-12 Education	Debt Service	Total
10,000 +	145,862,120	117,406,031	107,973,116	9,388,038	28,508,204	26,380,333	564,561,562	62,571,727	1,062,651,131

Revenues

Municipal Revenues. Of the \$2.2 billion in municipally generated revenue, property taxes accounted for the largest source (Table 5). In 2008, municipalities statewide collected \$1.8 billion in property taxes, accounting for 79% of all municipally generated revenue. The second largest source of municipal revenue was the excise tax assessed on automobiles and watercraft. 99% of the \$201.8 million in excise taxes collected in 2008 was generated by the automobile excise tax.

Interest, license/permit fee and service fee revenue accounted for \$190.3 million in revenue. Included in these categories are: 1) the interest collected on unpaid taxes, bank interest and investment income; 2) license, permit and franchise fees, including licenses for hunting, fishing, marriages, clam and shellfish harvesting, building, weapons and burning permits; and 3) charges for photocopying and the use of municipal buildings, as well as the service fees assessed for sewer and water utilities, solid waste removal and recreation services.

All other sources of revenue, not otherwise recorded in a specified category, are included in the “other” category. In 2008, “other” sources generated \$91.7 million in municipal revenues.

Table 5
Municipal Sources of Local Revenues - Statewide Estimates

Population Group	Property Taxes	Excise Taxes	Interest	License/Permit Fees	Service Fees	Other	Total
10,000 +	590,069,813	54,337,437	15,019,300	12,288,478	37,366,635	33,999,558	743,081,221

% of Total	78.5%	9.0%	1.8%	1.6%	5.1%	4.1%	100%

State Revenues. In 2008, municipalities received \$1.2 billion in state aid for a variety of different purposes, accounting for 33% of total revenue available to fund municipal services (*Table 6*). The largest source of state revenue included the state's share of K-12 education (\$877.4 million), not including investments in teacher retirement. Municipalities also received \$123.8 million in revenue sharing, \$27.1 million in homestead exemption reimbursement and \$24.4 million in local road assistance funding, known as the Urban/Rural Initiative Program.

Table 6
Municipal Sources of State Revenues - Statewide Estimates

Population Group	Revenue Sharing	Homestead Exemption	Road Asst. (URIP)	General Assistance	Tree Growth	State Aid Education	Other Education	Veterans' Reimburse	Other	Total
10,000 +	40,653,807	7,294,451	6,054,707	1,364,404	217,051	239,827,695	16,875,549	131,833	13,041,185	325,460,682

Other Revenue. In 2008, municipalities used \$90.8 million (*Table 7*) in “other source revenue” to fund municipal services. Sources of “other revenues” included federal, surplus and reserve/trust fund revenue.

Table 7
Municipal Sources of Other Revenues - Statewide Estimates

Population Group	Federal	Surplus	Reserve or Trust Fund	Total
10,000 +	12,820,815	5,328,607	1,377,116	19,526,538

Totals	29,285,674	49,281,937	12,281,025	90,848,636
% of Total	32.2%	54.2%	13.5%	100%

Expenditures

General Administration Expenditures. In 2008, municipalities spent \$377.9 million for the administration of municipal government (Table 8). This category includes expenditures for all employee wages, benefits and insurances, as well as the cost of operating boards (e.g., selectmen, councilors, planning, zoning, etc.), and administrative offices (e.g., manager, assessor, clerk, tax collector, treasurer, finance, planning, economic development, etc.). Expenditures for general administration costs accounted for 11.5% of total municipal spending. While the intent was to report all “wage and benefit” data under the “General Administration” category, some of the “wage and benefit” data may be reported within a departmental function.

The \$181.0 million spent on employee benefits, which include salaries and wages, retirement, health/dental, unemployment and workers’ compensation benefits, accounted for the largest expenditure source. The \$91.4 million spent on administrative offices accounted for the second largest general administration expenditure.

Table 8
General Administration Expenditures - Statewide Estimates

Population Group	Employee Benefits	Officers & Boards	Admin Offices	Legal	Government Buildings	Economic Development	Other	Total
10,000 +	83,356,974	767,105	26,311,459	1,883,758	9,974,171	11,109,378	12,459,275	145,862,120
5,000 - 9,999	47,039,461	989,521	25,542,136	1,735,511	4,820,427	7,200,496	7,920,068	95,247,620

Totals	181,012,526	7,651,621	91,357,173	6,344,704	26,200,342	34,111,135	31,177,565	377,855,066
% of Total	47.9%	2.0%	24.2%	1.7%	6.9%	9.0%	8.3%	100.0%

Public Safety Expenditures. In 2008, municipalities spent \$272.0 million (*Table 9*) on public safety services, including law enforcement, fire and emergency management services (EMS). Of the total expenditures, 90.8% of the costs were for the provision of services, while 9.2% was spent on capital investments, such as vehicle and equipment replacement. Expenditures for public safety services accounted for 8.3% of total municipal spending. As noted previously, the intent was to report all “wage and benefit” data under the “General Administration” category, some of the “wage and benefit” data may be reported within a departmental function.

Table 9
Public Safety Expenditures - Statewide Estimates

Population Group	Law Enforcement	Fire	EMS	Street Lighting	Other	Capital	Total
10,000 +	56,845,984	44,929,980	1,893,773	3,313,822	4,444,882	5,977,591	117,406,032

Totals	105,932,732	96,356,629	19,813,904	10,909,446	14,092,828	24,930,617	272,036,156
% of Total	38.9%	35.4%	7.3%	4.0%	5.2%	9.2%	100.0%

Road Expenditures. In 2008, municipalities spent \$232.0 million to maintain and repair local roads (*Table 10*). Of the total expenditures, 73.2% of the costs were for the provision of services, while 26.8% was spent on capital investments. Expenditures for local roads accounted for 7.0% of total municipal spending. Again, some of the “wage and benefit” data may be reported within a departmental function under this category rather than under the General Administration category.

Table 10
Road Expenditures - Statewide Estimates

Population Group	Roads Winter	Roads All Other	Capital	Total

% of Total	26.9%	46.2%	26.8%	100.0%

Funding for local road maintenance and repair is the subject of debate this year as Maine people prepare to vote in the November 2009 election on a citizen initiated proposal to reduce the amount of excise tax revenue collected by municipalities by 40%. Based on the information provided in this survey, if the proposal was enacted today, municipalities would lose \$80 million, representing 35% of the total road expenditures.

This is an important issue for municipalities because the funds collected from the excise taxes are invested in road repairs and maintenance. While some communities may collect more motor vehicle excise tax than their local road expenditures may require,

when all municipalities are viewed in the aggregate, their spending on roads is greater than the sum of their motor vehicle excise tax receipts and state road assistance (URIP).

According to the information collected in the 2008 fiscal survey, municipalities statewide raised \$199.6 million in motor vehicle excise tax revenues and spent \$232.0 million on roads. Adding \$24.3 million in state aid for local roads (Urban/Rural Initiative Program) to the motor vehicle excise tax revenues, the funds available to repair and maintain local roads increases to \$223.9 million. In summary, based on the information provided by the 238 participating municipalities, municipalities in the aggregate spent \$8.1 million more than they received in excise tax revenue and state aid.

Other Public Works Expenditures. In 2008, municipalities spent \$145.1 million (*Table 11*) to provide non-road related public works services, including solid waste and recycling, water and sewer and cemetery maintenance services. Of the total expenditures, 82.6% was for the provision of services, and 17.4% was spent on capital investments. Expenditures for non-road related public works expenditures accounted for 4.4% of total municipal spending.

Codes & Human Services Expenditures. In 2008, municipalities spent \$25.0 million (*Table 12*) to provide code enforcement and human services, which accounted for less than 1% of total municipal spending. The cost of enforcing local and state codes, such as land use, zoning, and shoreland zoning, accounted for \$12.0 million, the largest expenditure in this category. Expenditures under the General Assistance program accounted for the second largest expenditure, with \$6.4 million being spent in 2008 to help qualifying residents. Contributions to social service agencies (e.g., domestic violence shelters, hospices, regional health clinics, food pantries, etc.) accounted for \$3.1 million in this category. While the intent was to report all “wage and benefit” data under the “General Administration” category, some of the “wage and benefit” data may be reported within a departmental function.

Table 12
Codes & Human Services Expenditures - Statewide Estimates

Population Group	Codes Enforcement	General Assistance	Social Service Contributions	Other	Total

Parks/Recreation & Library Expenditures. In 2008, municipalities spent \$70.2 million (*Table 13*) to provide parks, recreation and library services. Of the total expenditures, 93.6% was for the provision of services, while 6.4 % was spent on capital investments. Expenditures for parks, recreation and library services accounted for 2.1% of total expenditures.

Expenditures for park maintenance, recreation programs, community service programs, special events, celebrations and snowmobile trails – all examples for services provided in this category – accounted for \$39.2 million of spending in this general category. In 2008, municipalities spent \$23.7 million on library services. While the intent was to report all “wage and benefit” data under the “General Administration” category, some of the “wage and benefit” data may be reported within a departmental function.

County, Education & Debt Service Expenditures. In 2008, municipalities spent \$111.5 million (*Table 14*) to fund county government programs. This county assessment to the property taxpayers accounted for 6.3% of the total \$1.8 billion in property tax collections. In comparison, the property taxpayers spent \$1.1 billion, or 60.0% of total property tax revenue collected, to fund the local share of K-12 education. Based on the county and school property tax assessments, it appears that municipalities raised \$592.6 million (33.6%) in property tax revenue to fund municipal programs, including overlay and Tax Increment Financing programs (TIF).

In 2008, municipalities statewide raised \$125.3 million to retire both short-term and long-term debt.
