Introduction

The financial information contained in this report comes from the municipal officials who filled out the local government finance survey distributed jointly by the U.S. Census and MMA in December, 2012. Please note that changes in the mix of respondent municipalities generates year-to-year changes in statewide projections that are not easily adjusted for verification by other source information. As a result, appropriate disclaimers need to be utilized with respect to year-to-year comparisons or trending analysis. However, the data found in this report are suitable for making municipality-by-municipality comparisons. We hope that more communities will participate in future surveys so that we can more accurately

<i>Totals</i>	<i>489</i>	<i>174</i>	<i>36%</i>

For the purposes of this report, the data are presented in two ways.

1. Population Group Averages and Statewide Estimates. Based on the information provided by the 174 participating municipalities, statewide revenue and expenditure estimates are calculated using a three-step formula. First, average revenue and expenditure data are calculated for each of the six population groups. Second, average revenue and expenditure data are multiplied by the number of municipalities in each population group, yielding estimated group-wide revenue and expenditure totals. Third, all of the population group totals are summed to achieve an estimated statewide total. Please note, in cases where municipalities reported that they did not have a particular revenue stream or expenditure, a zero was used in the averaging calculation.

2. Municipal Data. The information collected in the survey is also presented on a municipality-by-municipality basis and sorted by population categories. This format provides a quick and easy way for municipal officials to see how their revenue and expenditure data compare with other communities.

On behalf of the U.S. Census Bureau and MMA, thank you for taking the time to complete this survey. We hope you find this information useful. If you have any suggestions on how to improve this report, please feel free to contact MMA's Kate Dufour at 1-800-452-8786 or

Overview of Estimated Statewide Revenues and Expenditures

As shown in the charts below, it is estimated that in 2012 municipalities statewide collected \$3.7 billion in revenues and spent \$3.5 billion to provide local services. (Please note that the total state and municipal shares of K-12 education funding are reflected in both the revenue and expenditure categories.)

Municipal Revenue - Statewide Estimates

Of the \$2.5 billion in municipally generated revenue, property taxes accounted for the largest source. In 2012, municipalities statewide collected \$1.9 billion in property taxes, which generated nearly 76% of total local source revenue. When motor vehicle excise taxes are included, formerly levied as a property tax, \$2.13 billion in revenue was collected, representing 83.5% of all locally generated revenue. Service fees provided the second largest source of municipal revenue, generating \$182 million.

General Administration Expenditures- Statewide Estimates

In 2012 municipalities spent \$339 million for the administration of municipal government. This category includes expenditures for all employee benefits and insurances, as well as the cost of operating boards (e.g., selectmen, councilors, planning, zoning, etc.) and administrative offices (e.g., manager, assessor, clerk, tax collector, treasurer, finance, planning, etc.).

The \$127 million spent on employee benefits, which includes retirement, health/dental, unemployment and workers compensation benefits for all employees, accounted for the largest expenditure. The \$88 million spent on administrative offices accounted for the second largest general administration expenditure.

Codes & Human Services Expenditures- Statewide Estimates

In 2012, municipalities spent \$23 million to provide code enforcement and human services. The cost of enforcing local and state codes, such as land use, zoning, and shoreland zoning, accounted for nearly \$11 million . Municipalities also issued \$8 million in assistance to eligible clients under the state/municipal General Assistance program. Contributions to social service agencies accounted for nearly \$3 million in this category.
