

2022-2024 LPC Subcommittees

The two standing LPC subcommittees are described below. Subcommittee members review proposed legislation either by topic or as referred to the identified committees of the Legislature and make recommendations to the full LPC regarding the position the Maine Municipal Association should take on each legislative proposal. LPC members are asked to choose the subcommittee they would like to serve on, but service at the subcommittee level is not required. Typically, the subcommittees meet in the morning of an LPC meeting day and the full LPC convenes in the afternoon.
